

# Why Outward Mindset Online

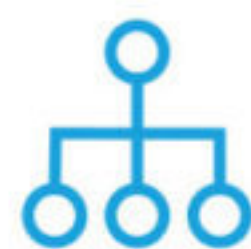

For an organisation to be agile, creative and responsive to the needs of its internal and external stakeholders, it needs to instil the following principles associated with an Outward Mindset. The Outward Mindset principles and tools enable organisations to:

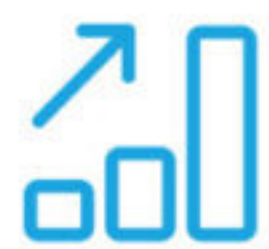

Provide employees with the skills to understand what drives human behaviour

Build an inclusive and agile company culture

Foster collaboration

Focus employees on the mission and objective of the organisation

Enhance employee engagement

Cultivate psychological safety

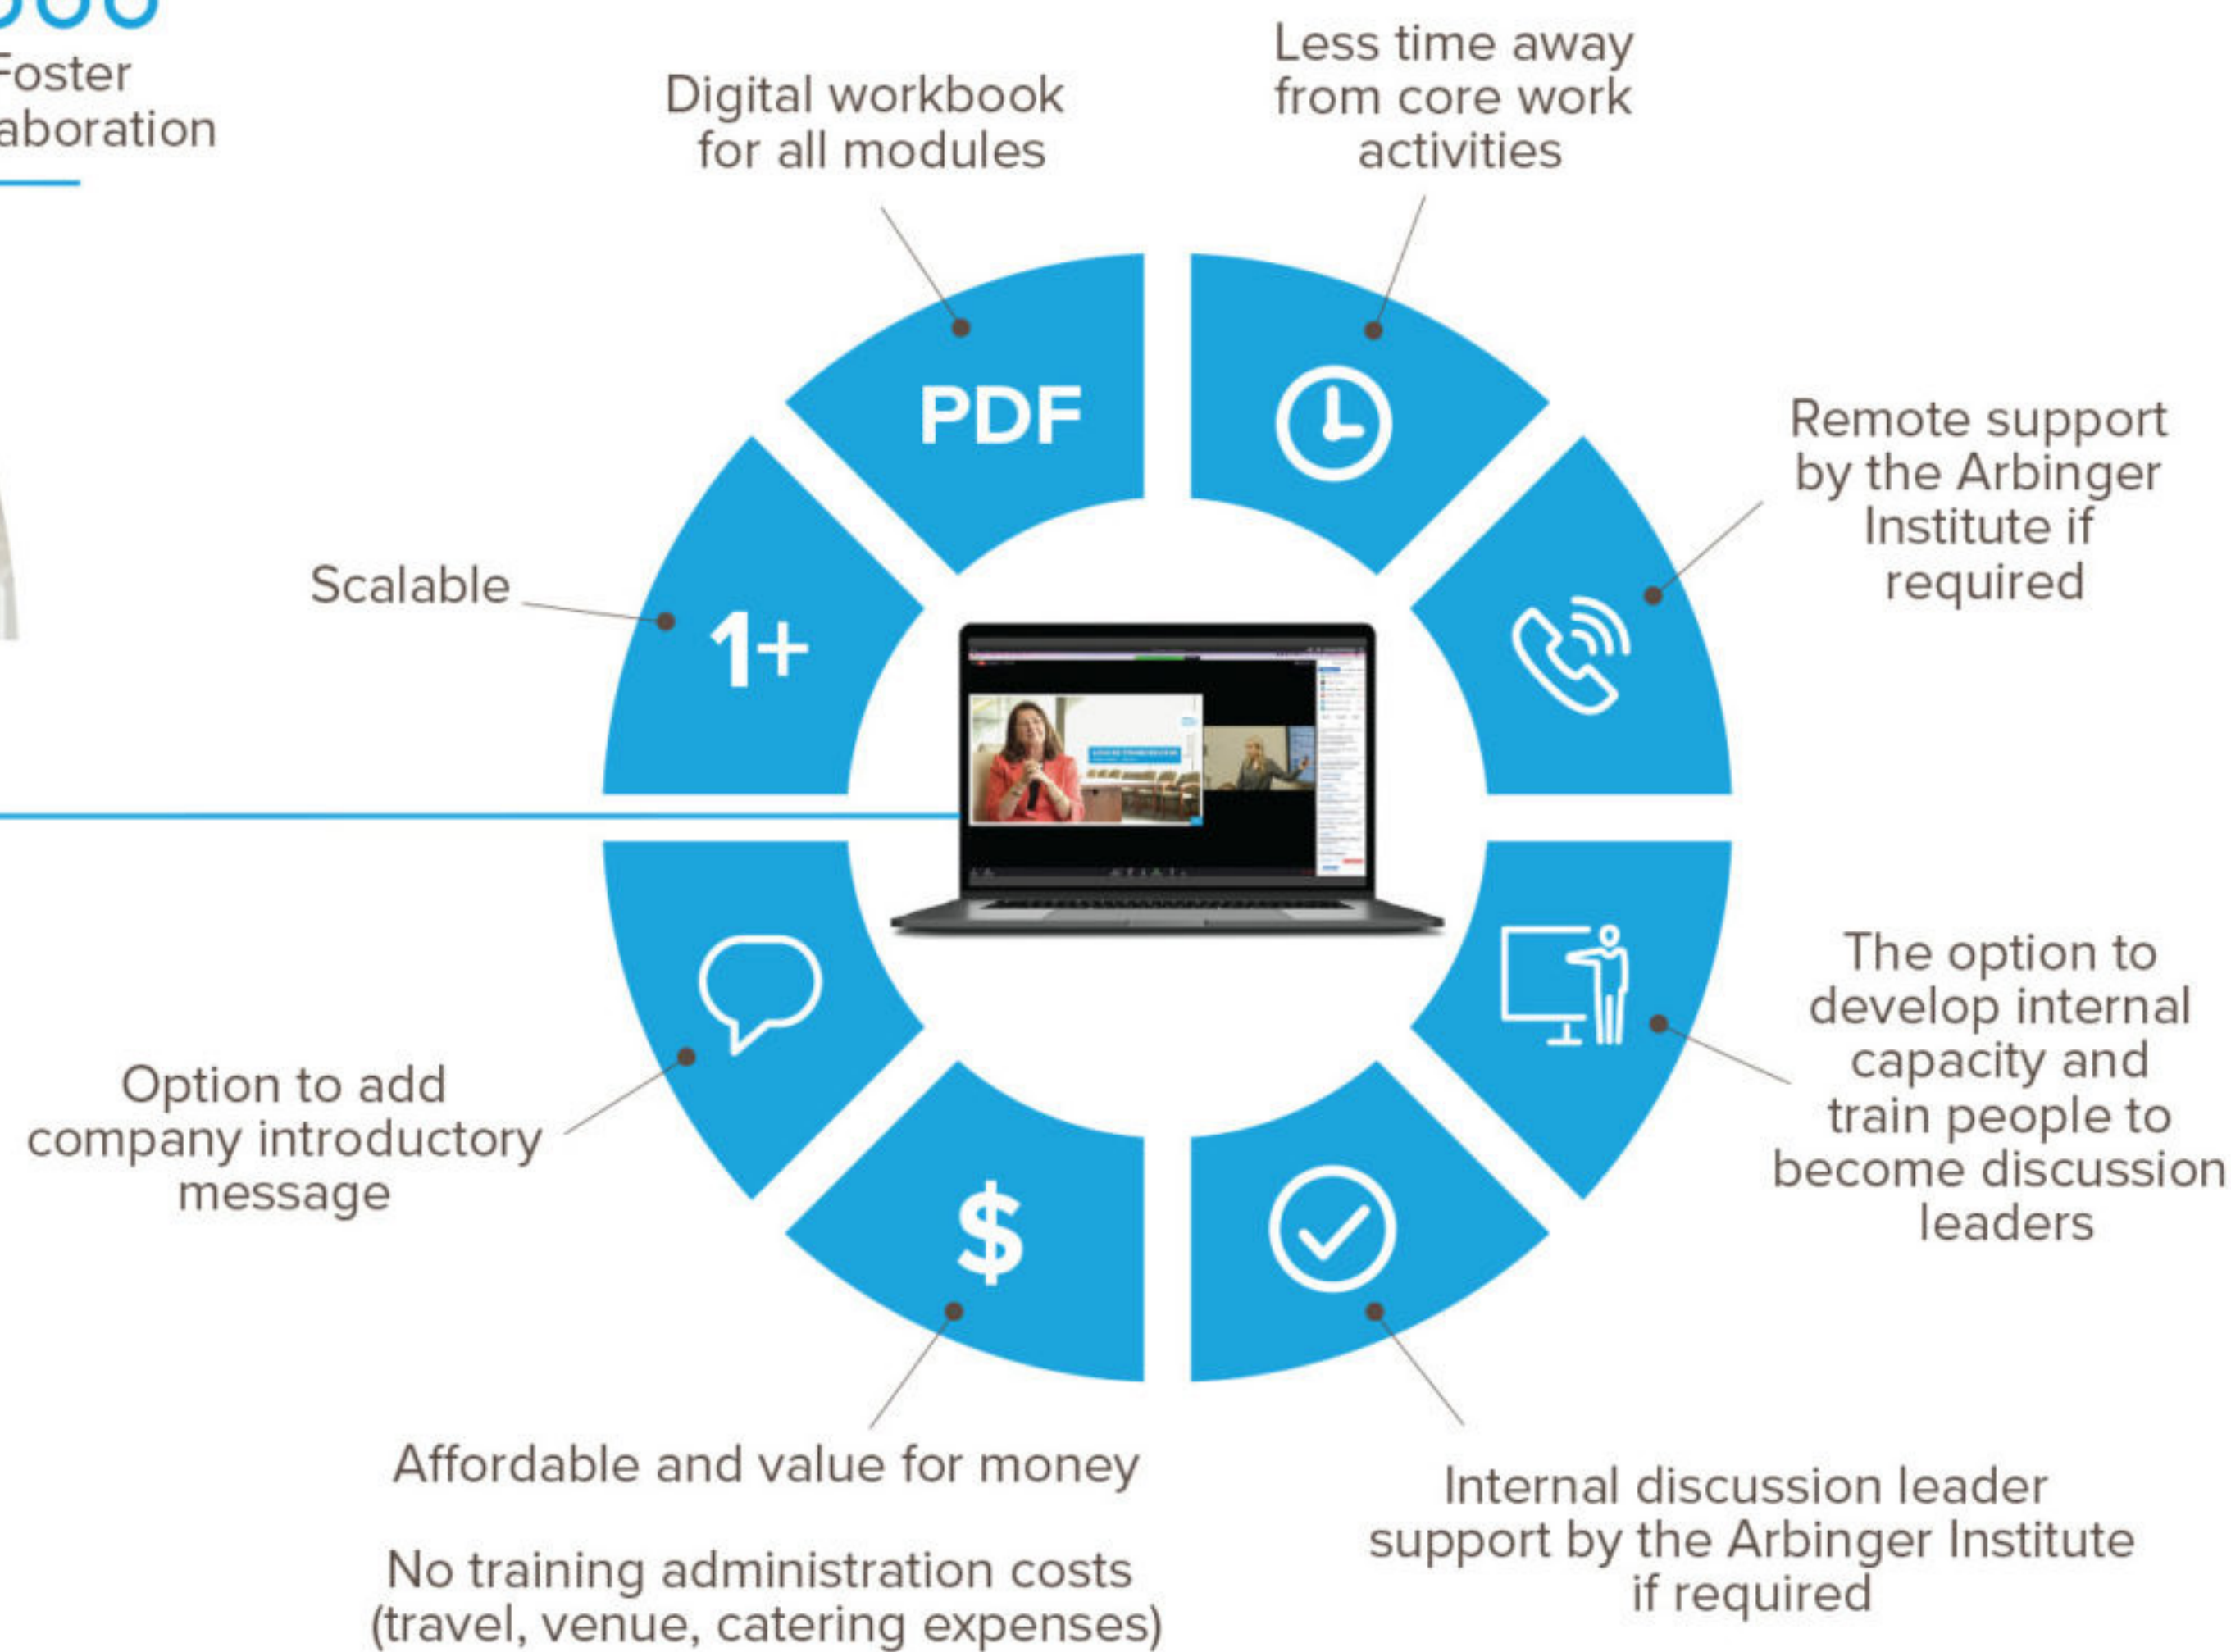

Develop a self-accountable workforce which encourages feedback
